

RCO40LP

38mm Wire Rope Cutter

Key features

- Industry recognised cutter
- Build in Intensifier
- Easy to deploy.
- Easy blade change out.

The Webtool 38mm cutter is a hydraulically operated, double acting wire cutter. The RCO40LP can cut wire rope with a minimum 25mm diameter, maximum tensile strength of 1960N/mm up to a maximum 38.1mm diameter with a maximum tensile strength of 1960N/mm.

It can also be used to cut cables of similar material, such as electrical power or communication cables. The tool can be easily operated by an ROV, with the compliant handle fitted, due to open sided design enables the tool to be easily positioned on the cable to be cut.

The long life of the blade and anvil reduces downtime for maintenance and cost of repairs. The reasonably small size of the 38mm cutter also makes it perfect for use in confined spaces

Specifications

Product	RCO40LP
Country of origin	UK
Manufacturer	Allspeeds Ltd
Weight in air	22 Kg
Dimensions	L308 x W130 x H130mm
Input /Outputs max input pressure	220 Bar (3,200 PSI)
Hydraulic connections cylinder ports	4 JIC
