

Webtool™ HCV270

Cutters and grinders

The cutter is intended for use on Coflexip type riser and will cut hose up to 270mm diameter. It may be used on alternative materials, such as electrical power or communication cables, up to a maximum of 200mm diameter.

Where small diameters are to be cut, effort should be made to place the material centrally along the anvil to minimise any offset loading. The cutter is not designed to cut large diameter wire rope.

Specifications

Product	Webtool™ HCV270
Country of origin	UK
Manufacturer	Allspeeds Ltd

Features

- Heavy duty cable, umbilical and riser cutter for use in severe working conditions
- Robust plated steel construction
- All steel components are electroless nickel plated to resist corrosion
- Hydraulically operated anvil for easy ROV deployment
- Optional intensifier panel is available
- Long blade life ensures that tool maintenance is kept to a minimum

Overall Specifications

Dimensions Height / Width	1143mm 883mm
Weight in air/water	352Kg 324Kg
Hydraulics max input pressure main cylinder	690 Bar
Hydraulics max input pressure anvil cylinder	210 Bar
Cutting capacity	Maximum Ø270mm

System Components

270mm hydraulic cutter	Anvil hydraulic hose set
Operating manual	
Transit case	
Spare blade
