

Webtool™ RCV115

Cutters and Grinders

The RCV115 is primarily intended for use on steel wire rope, having a maximum tensile strength of 1880N/mm and will cut ropes up to 115mm diameter.

It may be used on alternative materials, such as electrical power or communication cables, again up to a maximum of 115mm diameter. Where smaller diameters are to be cut, effort should be made to place the material centrally along the anvil to minimise any offset loading

Specifications

Product	Webtool™ RCV115
Country of origin	UK
Manufacturer	Allspeeds Ltd

Key features

- Heavy duty wire rope cutter designed for use in severe working conditions
- Robust plated steel and stainless steel construction
- All steel components are electroless nickel plated to resist corrosion
- Optional intensifier panel is available
- Hydraulically operated anvil for easy ROV deployment
- Long blade life ensures that tool maintenance is kept to a minimum

Specifications

Dimensions height	703mm
Dimensions width	511mm
Weight in air	117Kg
Weight in water	100Kg
Hydraulics max input pressure (main cylinder)	690 Bar
Hydraulics max input pressure (anvil cylinder)	210 Bar
Cutting capacity	Maximum Ø115mm wire rope of 1770N/mm ² grade

System components

115mm hydraulic cutter	Anvil hydraulic hose set
Operating manual	
Transit case	
Spare blade
