

Schilling T4 Manipulator

Key Points:

- Acute precision control with seven degrees of freedom
- Durable and reliable in harsh subsea environments
- Large operating envelope
- High lift-to-weight ratio

WHATS INCLUDED

T4 Manipulator
Master Controller
Transit Case
J-Box plus power lead
Deck test cable
Compensator
Parallel and Intermeshing Jaws
Mounting Bolts
Hose Set
Ops Manual

Description

Schilling Robotics' TITAN 4 manipulator is the industry's premier system that offers the optimum combination of dexterity and strength. Hundreds of TITAN manipulators are in use worldwide every day, and are the predominant manipulator of choice for work-class ROV systems.

Constructed mostly from titanium, it is uniquely capable of withstanding the industry's harsh and repetitive needs day after day.

Schilling T4 Manipulator

Specifications

Depth	Standard	4000 msw
	Extended	7000 msw
Weight	Weight in air	100Kg
	Weight in water	78Kg
Maximum lift	Lift at full extension	122Kg
	Nominal	454Kg
Hydraulics	Max pressure	3000 PSI
	Flow	5.7 - 19 LPM

WHATS INCLUDED

- T4 Manipulator
- Master Controller
- Transit Case
- J-Box plus power lead
- Deck test cable
- Compensator
- Parallel and Intermeshing Jaws
- Mounting Bolts
- Hose Set
- Ops Manual
