

ROV Eye Hook

The ROV eye hooks are manufactured specifically for easy handling by ROV manipulators and are opened remotely by pulling the retraction wire. The ROV eye Hook is an easy and cost-efficient solution for small and basic subsea lifting operations. The hooks are delivered with the following WLL, 4:1 in safety factor. The ROV Eye Hooks are safe and reliable when performing subsea lifting operations. The hooks are made from quenched and tempered alloy steel. The hooks are opened remotely by pulling the release wire.

Specifications

Product	Rov Eye hook
Country of origin	USA
Manufacturer	The Crosby Group
